

PROCEEDINGS  
OF THE  
ROYAL SOCIETY OF LONDON

SERIES A. MATHEMATICAL AND PHYSICAL SCIENCES

VOL 206

LONDON

Published for the Royal Society by the  
Cambridge University Press  
Bentley House, N.W.1

22 May 1951

*Printed in Great Britain at the University Press, Cambridge  
(Brooke Crutchley, University Printer)  
and published by the Cambridge University Press  
Cambridge, and Bentley House, London  
Agents for Canada, India, and Pakistan: Macmillan*

# CONTENTS

SERIES A VOLUME 206

No. A 1084. 22 March 1951

	PAGE
The geodetic uses of gravity measurements and their appropriate reduction. By J. de Graaff-Hunter, F.R.S. . . . . .	1
The non-planar vibrations of some substituted ethylenes and related compounds. By P. Torkington . . . . .	17
Adsorption on evaporated tungsten films. II. The chemisorption of hydrogen and the catalytic parahydrogen conversion. By B. M. W. Trapnell . . . . .	39
A theory of the transformation in pure cobalt. By J. W. Christian . . . . .	51
The rate of evaporation of droplets. V. Evaporation characteristics of some branched-chain hydrocarbons and a straight-chain fluorocarbon. By R. S. Bradley and G. C. S. Waghorn . . . . .	65
The application of Boltzmann's superposition theory to materials exhibiting reversible $\beta$ flow. By C. Henderson . . . . .	72
Atmospheric transmission in the 1 to 14 $\mu$ region. By H. A. Gebbie, W. R. Harding, C. Hilsum, A. W. Pryce and V. Roberts. (Plate 1) . . . . .	87
A study of motions in a rotating liquid. By G. W. Morgan . . . . .	108
Photodisintegration of the alpha-particle and the inverse processes. By B. H. Flowers and F. Mandl . . . . .	131

No. A 1085. 10 April 1951

The electrical processes in the intervals between the strokes of a lightning discharge. By D. J. Malan and B. F. J. Schonland, F.R.S. . . . . .	145
The theory of the nuclear hyperfine structure of paramagnetic resonance spectra in the copper Tutton salts. By A. Abragam and M. H. L. Pryce . . . . .	164
The theory of paramagnetic resonance in hydrated cobalt salts. By A. Abragam and M. H. L. Pryce . . . . .	173
The use of polarized infra-red radiation in the study of crystal structure. By E. J. Ambrose, A. Elliott and R. B. Temple . . . . .	192
Infra-red spectra and structure of fibrous proteins. By E. J. Ambrose and A. Elliott . . . . .	206
Some experimental measurements of the inner potentials of various crystals. By V. F. G. Tull . . . . .	219
The calculation of the inner potential of a crystal. By V. F. G. Tull . . . . .	232
Experiments with an anisotropic magnetic crystal at temperatures below 1° K. By C. G. B. Garrett . . . . .	242
Viscosities of liquids at constant volume. By A. Jobling and A. S. C. Lawrence . . . . .	257
A wedge effect at amalgam/electrolyte surfaces. By R. J. Johnston and A. R. Ubbelohde. (Plate 2) . . . . .	275

## No. A 1086. 7 May 1951

	PAGE
Electronic levels in simple conjugated systems. II. Butadiene. By C. A. Coulson, F.R.S. and Juliane Jacobs . . . . .	287
Electronic levels in simple conjugated systems. III. The significance of configuration interaction. By C. A. Coulson, F.R.S., D. P. Craig and Juliane Jacobs . . . . .	297
Aspects of polymerization at high pressures. By F. M. Merrett and R. G. W. Norrish, F.R.S. . . . .	309
Statistical mechanics of regular mixtures. By E. A. Guggenheim, F.R.S. and M. L. McGlashan . . . . .	335
Magnetic properties of some paramagnetic crystals at low temperatures. By Bhagawati Charan Guha . . . . .	353
Secondary circulation in fluid flow. By W. R. Hawthorne . . . . .	374
The aerodynamic drag of a free water surface. By J. R. D. Francis . . . . .	387
The structure of synthetic polypeptides. III. The molecular configurations and physical properties of some regenerated synthetic polypeptides. By C. H. Bamford, W. E. Hanby and F. Happey. (Plate 3) . . . . .	407
An experimental study of the pressure variations in standing water waves. By R. I. B. Cooper and M. S. Longuet-Higgins . . . . .	424

## No. A 1087. 22 May 1951

The quenching of anthracene fluorescence. By E. J. Bowen, F.R.S. and W. S. Metcalf . . . . .	437
Corresponding states in mixtures of slightly imperfect gases. By E. A. Guggenheim, F.R.S. and M. L. McGlashan . . . . .	448
The theory of direct-current characteristics of rectifiers. By P. T. Landsberg . . . . .	463
Contributions to the theory of heterogeneous barrier layer rectifiers. By P. T. Landsberg . . . . .	477
Electronic wave functions. III. Some theorems on integrals of antisymmetric functions of equivalent orbital form. By S. F. Boys . . . . .	489
On higher Born approximations in potential scattering. By R. H. Dalitz . . . . .	509
On radiative corrections to the angular correlation in internal pair creation. By R. H. Dalitz . . . . .	521
The diagnosis of mistakes in programmes on the EDSAC. By S. Gill . . . . .	538
The observation of spiral growth-steps in <i>n</i> -paraffin single crystals in the electron microscope. By I. M. Dawson and V. Vand . . . . .	555
Relativity theory and the creation of matter. By W. H. McCrea . . . . .	562
Remarks on the non-local electrodynamics. By J. Rayski . . . . .	575
Index . . . . .	584
