

PROCEEDINGS
OF THE
ROYAL SOCIETY OF LONDON

SERIES A. MATHEMATICAL AND PHYSICAL SCIENCES

VOL 207

LONDON

Published for the Royal Society by the
Cambridge University Press
Bentley House, N.W.1

23 July 1951

*Printed in Great Britain at the University Press, Cambridge
(Brooke Crutchley, University Printer)
and published by the Cambridge University Press
Cambridge, and Bentley House, London
Agents for Canada, India, and Pakistan: Macmillan*

CONTENTS

SERIES A VOLUME 207

No. A 1088. 7 June 1951

A discussion on bond energies and bond lengths

	PAGE
Introduction. By M. G. Evans, F.R.S.	1
Experimental methods for measurement of bond dissociation energies and heats of formation of radicals. By M. Szwarc	5
Factors affecting bond strengths. By A. D. Walsh	
I. A possible new definition of electronegativity	13
II. Empirical relations involving force constants and ionization potentials	22
Comments on the paper by A. D. Walsh. By J. W. Linnett	30
Comments on the paper by A. D. Walsh. By H. A. Skinner	31
The ionic character of bonds and bond properties. By E. Warhurst	32
Covalency, electrovalency and electronegativity. By T. L. Cottrell and L. E. Sutton	49
Critical survey of the method of ionic-homopolar resonance. By C. A. Coulson	63
Comments on the paper by C. A. Coulson. By W. Moffitt	74
The energies and bond lengths of conjugated molecules. An introductory review of theoretical developments. By Sir John Lennard-Jones, F.R.S.	75
Bond lengths in conjugated molecules: the present position. By C. A. Coulson	91
Comments on the paper by Sir John Lennard-Jones. By W. Moffitt	100
The measurement of bond lengths in conjugated molecules of carbon centres. By J. M. Robertson, F.R.S.	101
Order/length relationships for π -bonds in heteronuclear molecules. By E. G. Cox and G. A. Jeffrey	110
The influence of conjugation on heterolytic dissociation energies. By H. C. Longuet-Higgins	121
References	133

No. A 1089. 22 June 1951

The atomic heats of the rare-earth elements. By D. H. Parkinson, F. E. Simon, F.R.S. and F. H. Spedding	137
Application of the image-force model to the theory of contact rectification and of rectifier breakdown. By E. Billig	156
Electronic wave functions. IV. Some general theorems for the calculation of Schrödinger integrals between complicated vector-coupled functions for many-electron atoms. By S. F. Boys	181
Electronic wave functions. V. Systematic reduction methods for all Schrödinger integrals of conventional systems of antisymmetric vector-coupled functions. By S. F. Boys	197
The plastic theory of bending of mild steel beams with particular reference to the effect of shear forces. By M. R. Horne	216
On the quantum theory of the elementary particles. II. Quantum field dynamics. By K. V. Roberts	228
Measurements of the direction of arrival of short radio waves reflected at the ionosphere. By E. N. Bramley and W. Ross	251
The solid-fluid equilibrium of helium above 5000 atm. pressure. By F. A. Holland, J. A. W. Huggill and G. O. Jones	268
On the production of diffraction gratings. I. The copying of plane gratings. By G. D. Dew and L. A. Sayce (Plates 1 and 2)	278

No. A 1090. 6 July 1951

	PAGE
A refractometric method for following the non-stationary state of chemical reactions. By N. Grassie and H. W. Melville, F.R.S.	285
The invariant theory of isotropic turbulence in magneto-hydrodynamics. II. By S. Chandrasekhar, F.R.S.	301
Bond lengths in naphthalene and anthracene. By C. A. Coulson, F.R.S., R. Daudel and J. M. Robertson, F.R.S.	306
Some theorems on perturbation theory. III. By E. C. Titchmarsh, F.R.S.	321
On electrical effects due to sound waves in colloidal suspensions. By J. A. Enderby	329
Order-disorder statistics. III. The antiferromagnetic and order-disorder transitions. By J. E. Brooks and C. Domb	343
The thermal excitation of atmospheric oscillations. By M. V. Wilkes	358
Motion in the wake of a thin plate at zero incidence. By D. Meksyn	370
The quantum mechanics of the electron. By H. T. Flint and E. Marjorie Williamson	380
The visible emission spectra of iodine and bromine monofluorides and their dissociation energies. By R. A. Durie. (Plate 3)	388
The renormalization method in quantum electrodynamics. By F. J. Dyson	395
Tensor identities in wave-tensor calculus. By C. W. Kilmister	402
Iterative procedures related to relaxation methods for eigenvalue problems. By S. H. Crandall	416
Alkali-metal ions in the metabolism of <i>Bact. lactis aerogenes</i> . I. Experiments on the uptake of radioactive potassium, rubidium and phosphorus. By A. A. Eddy, T. C. N. Carroll, C. J. Danby and Sir Cyril Hinshelwood, FOR.SEC.R.S. (Abstract)	424
Alkali-metal ions in the metabolism of <i>Bact. lactis aerogenes</i> . II. Connexion with viability, growth rate and enzyme activity. By A. A. Eddy and Sir Cyril Hinshelwood, FOR.SEC.R.S. (Abstract)	424
Alkali-metal ions in the metabolism of <i>Bact. lactis aerogenes</i> . III. General discussion of their role and mode of action. By A. A. Eddy and Sir Cyril Hinshelwood, FOR.SEC.R.S. (Abstract)	425

No. A 1091. 23 July 1951

The spontaneous magnetization of cobalt. By H. P. Myers and W. Sucksmith, F.R.S.	427
The frequencies and the anharmonicities of the normal modes of oscillation of alkali halide crystals. I. Lattice oscillations. By Sir K. S. Krishnan, F.R.S. and Sanat Kumar Roy.	447
The kinetics of the oxidation of gaseous methyl ethyl ketone. I. By J. Bardwell and Sir Cyril Hinshelwood, FOR.SEC.R.S.	461
The kinetics of the oxidation of gaseous methyl ethyl ketone. II. By J. Bardwell	470
The densities and limiting densities of vapours. By F. L. Casado, Doreen S. Massie and R. Whytlaw-Gray, F.R.S.	483
The crystal structure of ribonuclease. I. By C. H. Carlisle and Helen Scouloudi	496
Clouds produced in an expansion chamber by ultra-violet light. By F. J. M. Farley	527
The reaction of methane and deuterium on evaporated nickel catalysts. By C. Kemball	539
The flow of glaciers and ice-sheets as a problem in plasticity. By J. F. Nye	554
Index	573
