

INDEX TO VOLUME 251 (A)

- Abbott, M. R. The downstream effect of closing a barrier across an estuary with particular reference to the Thames, 426.
- Addition of methyl radicals to isolated, conjugated and cumulated dienes (Rajbenbach & Szwarc), 394.
- Alternation of bond lengths in long conjugated chain molecules (Longuet-Higgins & Salem), 172.
- Analysis of the fluorescence spectrum of neodymium chloride (Judd), 134.
- Andersen, V. S. & Norrish, R. G. W. The polymerization of styrene sensitized by molecules in the triplet state. I. The reaction between anthracene and styrene, 1.
- Barrer, R. M. & Gabor, T. A comparative structural study of cracking catalyst, porous glass, and carbon plugs by surface and volume flow of gases, 353.
- Barrow, R. F. *See* Johns & Barrow.
- Batson, A. P., Culwick, B. B., Hill, J. G. & Riddiford, L. Proton-proton interactions at 970 MeV, 218.
- Batson, A. P., Culwick, B. B., Klepp, H. B. & Riddiford, L. Proton-deuteron interactions at 970 MeV, 233.
- Bell, R. P. & Spencer, T. Kinetics of the base-catalyzed bromination of ethyl nitroacetate, 41.
- Blackett, P. M. S. The Rutherford Memorial Lecture, 1958, 293.
- Blackman, M., Haigh, G. & Lisgarten, N. D. Investigations on the domain structure in hematite by means of the electron beam method, 117.
- Bondi, H., Pirani, F. A. E. & Robinson, I. Gravitational waves in general relativity. III. Exact plane waves, 519.
- Bonnor, W. B. The mechanics of general relativity, 55.
- Bowers, K. D., Kamper, R. A. & Lustig, C. D. Paramagnetic resonance absorption in molecular oxygen, 565.
- Bredin, D. J., Burcham, W. E., Evans, D., Gibson, W. M., McKee, J. S. C., Prowse, D. J., Rotblat, J. & Snyder, J. N. The scattering of alpha particles by helium, 143.
- Brewer, D. F. & Edwards, D. O. The heat conductivity and viscosity of liquid helium II, 247.
- Brewster, D. B., Grosberg, P. & Nissan, A. H. The stability of viscous flow between horizontal concentric cylinders, 76.
- Broadley, J. S., Cruickshank, D. W. J., Morrison, J. D., Robertson, J. M. & Shearer, H. M. M. Three-dimensional refinement of the structure of β -succinic acid, 441.
- Bromination of 2-carbethoxycyclopentanone at low temperatures (Hulett), 274.
- Broom, T. & Ham, R. K. The hardening of copper single crystals by fatigue, 186.
- Brown, G. E., Langer, J. S. & Schaefer, G. W. Lamb shift of a tightly bound electron. I. Method, 92.
- Brown, G. E. & Mayers, D. F. Lamb shift of a tightly bound electron. II. Calculation for the K-electron in mercury, 105.
- Burcham, W. E. *See* Bredin, Burcham *et al.*
- Charnes, A., Lemke, C. E. & Zienkiewicz, O. C. Virtual work, linear programming and plastic limit analysis, 110.
- Christopherson, D. G. & Dowson, D. An example of minimum energy dissipation in viscous flow, 550.
- Comparative structural study of cracking catalyst, porous glass, and carbon plugs by surface and volume flow of gases (Barrer & Gabor), 353.
- Cruickshank, D. W. J. *See* Broadley, Cruickshank, Morrison, Robertson & Shearer.

- Cullis, C. F., Hardy, F. R. F. & Turner, D. W. The point of oxygen attack in the combustion of hydrocarbons. II. The formation and origin of ketones, 265.
- Culwick, B. B. *See* Batson, Culwick, Hill & Riddiford; *also* Batson, Culwick, Klepp & Riddiford.
- Cunningham, J. & Tompkins, F. C. Spectra of sodium and potassium azide crystals coloured by ultra-violet and X-ray radiation, 27.
- Dalgarno, A. Perturbation theory for atomic systems, 282.
- Downstream effect of closing a barrier across an estuary with particular reference to the Thames (Abbott), 426.
- Dowson, D. *See* Christopherson & Dowson.
- Eaton, D. R. Line strength measurements in vibration bands of deuterium cyanide, 486.
- Eaton, D. R. & Thompson, H. W. Pressure broadening studies on vibration-rotation bands. I. The determination of line widths, 458.
- Eaton, D. R. & Thompson, H. W. Pressure broadening studies on vibration-rotation bands. II. The effective collision diameters, 475.
- Edwards, D. O. *See* Brewer & Edwards.
- Eigenvalues in problems with spherical symmetry. II. (Titchmarsh), 46.
- Evans, D. *See* Bredin, Burcham *et al.*
- Example of minimum energy dissipation in viscous flow (Christopherson & Dowson), 550.
- Feynman principle for a Fermi system (Martin), 543.
- Frey, H. M. Reactions of vibrationally excited molecules. II. The reaction of methylene with *trans* and *cis* butene-2, 575.
- Froese, Charlotte. Limiting behaviour of atomic wave functions for large atomic number. III. 534.
- Gabor, T. *See* Barrer & Gabor.
- Generalized classical dynamics, and the 'classical analogue' of a Fermi oscillator (Martin), 536.
- Gibson, W. M. *See* Bredin, Burcham *et al.*
- Gill, E. K. & Laidler, K. J. The vibration and decomposition of the hydrogen peroxide molecule, 66.
- Gill, E. W. Inter-quaternary distance and ganglion-blocking activity in bis-quaternary compounds (Abstract), 291.
- Gravitational waves in general relativity. III. Exact plane waves (Bondi, Pirani & Robinson), 519.
- Grosberg, P. *See* Brewster, Grosberg & Nissan.
- Haigh, G. *See* Blackman, Haigh & Lisgarten.
- Ham, R. K. *See* Broom & Ham.
- Hardening of copper single crystals by fatigue (Broom & Ham), 186.
- Hardy, F. R. F. *See* Cullis, Hardy & Turner.
- Heat conductivity and viscosity of liquid helium II (Brewer & Edwards), 247.
- Hill, J. G. *See* Batson, Culwick, Hill & Riddiford.
- Hodgkin, Dorothy Crowfoot, Pickworth, Jenny, Robertson, J. H., Prosen, R. J., Sparks, R. A. & Trueblood, K. N. The structure of vitamin B₁₂. II. The crystal structure of a hexacarboxylic acid obtained by the degradation of vitamin B₁₂, 306.
- Hulett, J. R. The bromination of 2-carbethoxycyclopentanone at low temperatures, 274.
- Inter-quaternary distance and ganglion-blocking activity in bis-quaternary compounds (Abstract) (Gill), 291.

- Investigations on the domain structure in hematite by means of the electron beam method (Blackman, Haigh & Lisgarten), 117.
- Johns, J. W. C. & Barrow, R. F. The ultra-violet spectra of HF and DF, 504.
- Judd, B. R. An analysis of the fluorescence spectrum of neodymium chloride, 134.
- Judd, B. R. & Loudon, R. Spin-orbit interaction in the configuration f^3 , 127.
- Junction growth in metallic friction: the role of combined stresses and surface contamination (Tabor), 378.
- Kamper, R. A. *See* Bowers, Kamper & Lustig.
- Kinetics of nitridation of calcium (Roberts & Tompkins), 369.
- Kinetics of the base-catalyzed bromination of ethyl nitroacetate (Bell & Spencer), 41.
- Klepp, H. B. *See* Batson, Culwick, Klepp & Riddiford.
- Laidler, K. J. *See* Gill & Laidler.
- Lamb shift of a tightly bound electron. I. Method (Brown, Langer & Schaefer), 92.
- Lamb shift of a tightly bound electron. II. Calculation for the K -electron in mercury (Brown & Mayers), 105.
- Langer, J. S. *See* Brown, Langer & Schaefer.
- Lemke, C. E. *See* Charnes, Lemke & Zienkiewicz.
- Limiting behaviour of atomic wave functions for large atomic number. III. (Froese), 534.
- Line strength measurements in vibration bands of deuterium cyanide (Eaton), 486.
- Lisgarten, N. D. *See* Blackman, Haigh & Lisgarten.
- Longuet-Higgins, H. C. & Salem, L. The alternation of bond lengths in long conjugated chain molecules, 172.
- Loudon, R. *See* Judd & Loudon.
- Lustig, C. D. *See* Bowers, Kamper & Lustig.
- McKee, J. S. C. *See* Bredin, Burcham *et al.*
- Mangler, K. W. & Smith, J. H. B. A theory of the flow past a slender delta wing with leading edge separation, 200.
- Martin, J. L. Generalized classical dynamics, and the 'classical analogue' of a Fermi oscillator, 536.
- Martin, J. L. The Feynman principle for a Fermi system, 543.
- Maskell, E. C. & Spence, D. A. A theory of the jet flap in three dimensions, 407.
- Mayers, D. F. *See* Brown & Mayers.
- Mechanics of general relativity (Bonnor), 55.
- Melting and crystal structure: Effects of thermal transformations of ionic crystals on their ultra-violet absorption (Rhodes & Ubbelohde), 156.
- Morrison, J. D. *See* Broadley, Cruickshank, Morrison, Robertson & Shearer.
- Nissan, A. H. *See* Brewster, Grosberg & Nissan.
- Norrish, R. G. W. & Simons, J. P. The polymerization of styrene sensitized by molecules in the triplet state. II. Kinetics and mechanism, 4.
- Norrish, R. G. W. *See* Andersen & Norrish.
- Paramagnetic resonance absorption in molecular oxygen (Bowers, Kamper & Lustig), 565.
- Perturbation theory for atomic systems (Dalgarno), 282.
- Pickworth, Jenny. *See* Hodgkin, Pickworth *et al.*
- Pirani, F. A. E. *See* Bondi, Pirani & Robinson.
- Point of oxygen attack in the combustion of hydrocarbons. II. The formation and origin of ketones (Cullis, Hardy & Turner), 265.
- Polymerization of styrene sensitized by molecules in the triplet state. I. The reaction between anthracene and styrene (Andersen & Norrish), 1.

- Polymerization of styrene sensitized by molecules in the triplet state. II. Kinetics and mechanism (Norrish & Simons), 4.
- Pressure broadening studies on vibration-rotation bands. I. The determination of line widths (Eaton & Thompson), 458.
- Pressure broadening studies on vibration-rotation bands. II. The effective collision diameters (Eaton & Thompson), 475.
- Prosen, R. J. *See* Hodgkin, Pickworth *et al.*
- Proton-deuteron interactions at 970 MeV (Batson, Culwick, Klepp & Riddiford), 233.
- Proton-proton interactions at 970 MeV (Batson, Culwick, Hill & Riddiford), 218.
- Prowse, D. J. *See* Bredin, Burcham *et al.*
- Rajbenbach, A. & Szwarc, M. Addition of methyl radicals to isolated, conjugated and cumulated dienes, 394.
- Reactions of vibrationally excited molecules. II. The reaction of methylene with *trans* and *cis* butene-2 (Frey), 575.
- Rhodes, Elizabeth & Ubbelohde, A. R. Melting and crystal structure: effects of thermal transformations of ionic crystals on their ultra-violet absorption, 156.
- Riddiford, L. *See* Batson, Culwick, Hill & Riddiford; *also* Batson, Culwick, Klepp & Riddiford.
- Roberts, M. W. & Tompkins, F. C. Kinetics of nitridation of calcium, 369.
- Robertson, J. H. *See* Hodgkin, Pickworth *et al.*
- Robertson, J. M. *See* Broadley, Cruickshank, Morrison, Robertson & Shearer.
- Robinson, I. *See* Bondi, Pirani & Robinson.
- Rotblat, J. *See* Bredin, Burcham *et al.*
- Rutherford Memorial Lecture, 1958 (Blackett), 293.
- Salem, L. *See* Longuet-Higgins & Salem.
- Scattering of alpha particles by helium (Bredin, Burcham, Evans, Gibson, McKee, Prowse, Rotblat & Snyder), 143.
- Schaefer, G. W. *See* Brown, Langer & Schaefer.
- Senior, D. A. A theoretical treatment of combustion in a spherical underwater gas bubble, 493.
- Shearer, H. M. M. *See* Broadley, Cruickshank, Morrison, Robertson & Shearer.
- Simons, J. P. *See* Norrish & Simons.
- Smith, J. H. B. *See* Mangler & Smith.
- Snyder, J. N. *See* Bredin, Burcham *et al.*
- Sparks, R. A. *See* Hodgkin, Pickworth *et al.*
- Spectra of sodium and potassium azide crystals coloured by ultra-violet and X-ray radiation (Cunningham & Tompkins), 27.
- Spence, D. A. *See* Maskell & Spence.
- Spencer, T. *See* Bell & Spencer.
- Spin-orbit interaction in the configuration f^3 (Judd & Loudon), 127.
- Stability of viscous flow between horizontal concentric cylinders (Brewster, Grosberg & Nissan), 76.
- Structure of vitamin B₁₂. II. The crystal structure of a hexacarboxylic acid obtained by the degradation of vitamin B₁₂ (Hodgkin, Pickworth, Robertson, Prosen, Sparks & Trueblood), 306.
- Szwarc, M. *See* Rajbenbach & Szwarc.
- Tabor, D. Junction growth in metallic friction: the role of combined stresses and surface contamination, 378.
- Theoretical treatment of combustion in a spherical underwater gas bubble (Senior), 493.

- Theory of the flow past a slender delta wing with leading edge separation (Mangler & Smith), 200.
- Theory of the jet flap in three dimensions (Maskell & Spence), 407.
- Thompson, H. W. *See* Eaton & Thompson.
- Three-dimensional refinement of the structure of β -succinic acid (Broadley, Cruickshank, Morrison, Robertson & Shearer), 441.
- Titchmarsh, E. C. On the eigenvalues in problems with spherical symmetry. II, 46.
- Tompkins, F. C. *See* Cunningham & Tompkins; *also* Roberts & Tompkins.
- Trueblood, K. N. *See* Hodgkin, Pickworth *et al.*
- Turner, D. W. *See* Cullis, Hardy & Turner.
- Ubbelohde, A. R. *See* Rhodes & Ubbelohde.
- Ultra-violet spectra of HF and DF (Johns & Barrow), 504.
- Vibration and decomposition of the hydrogen peroxide molecule (Gill & Laidler), 66.
- Virtual work, linear programming and plastic limit analysis (Charnes, Lemke & Zienkiewicz), 110.
- Zienkiewicz, O. C. *See* Charnes, Lemke & Zienkiewicz.
