

INDEX TO VOLUME 254 (A)

- Acoustic radiation from a turbulent fluid containing foreign bodies (Doak), 129.
- Adhesion of metal films to glass (Benjamin & Weaver), 177.
- Adsorption and oxide formation on aluminium films (Eley & Wilkinson), 327.
- Aguilar, J., Burcham, W. E., Catalá, J., England, J. B. A., McKee, J. S. C. & Rotblat, J.
The scattering of 38 MeV α -particles by C, N, O, F and Kr nuclei, 395.
- Alcock, C. B. & Hooper, G. W. Thermodynamics of the gaseous oxides of the platinum-group metals, 551.
- Andrade, E. N. da C. & Jolliffe, K. H. The flow of polycrystalline metals under simple shear. II, 291.
- Attachment of slow electrons in carbon dioxide (Craggs & Tozer), 229.
- Baker, J. M., Hayes, W. & O'Brien, M. C. M. Satellite lines in the paramagnetic resonance spectra of impurities in calcium fluoride, 273.
- Bellamy, L. J. & Williams, R. L. Solvent effects on the infra-red spectra of hindered phenols, 119.
- Benjamin, P. & Weaver, C. Adhesion of metal films to glass, 177.
- Benjamin, P. & Weaver, C. Measurement of adhesion of thin films, 163.
- Bowen, D. H. & Jones, G. O. Superconductivity of tin, lead and thallium up to 10 000 atmospheres, 522.
- Boys, S. F. & Shavitt, I. Intermolecular forces and properties of fluids. I. The automatic calculation of higher virial coefficients and some values of the fourth coefficient for the Lennard-Jones potential, 487.
- Boys, S. F. & Shavitt, I. Intermolecular forces and properties of fluids. II. A general functional representation of intermolecular potentials, and some values of the second, third and fourth virial coefficients for systematically differing potentials, 499.
- Burcham, W. E. *See* Aguilar, Burcham, Catalá, England, McKee & Rotblat.
- Caldow, G. L., Cunliffe-Jones, D. & Thompson, H. W. Intermolecular forces and solvent effects. II. Band intensities, 17.
- Caldow, G. L. & Thompson, H. W. Intermolecular forces and solvent effects. I. Frequency shifts, 1.
- Carrington, A., Ingram, D. J. E., Lott, K. A. K., Schonland, D. S. & Symons, M. C. R. Electron resonance studies of transition metal oxyions. I. Experimental results for the manganate, hypomanganate and ferrate ions, 101.
- Castillejo, L., Percival, I. C. & Seaton, M. J. On the theory of elastic collisions between electrons and hydrogen atoms, 259.
- Catalá, J. *See* Aguilar, Burcham, Catalá, England, McKee & Rotblat.
- Charlesby, A. & Lloyd, D. G. Radiation kinetics in anthracene-silicone mixtures, 343.
- Combustion of gaseous aldehydes studied by flash photolysis and kinetic spectroscopy (McKellar & Norrish), 147.
- Contrast breadths and relative intensities of electron diffraction rings (Halliday), 30.
- Craggs, J. D. & Tozer, B. A. The attachment of slow electrons in carbon dioxide, 229.
- Cunliffe-Jones, D. *See* Caldow, Cunliffe-Jones & Thompson.
- Dalgarno, A. & Stewart, A. L. A perturbation calculation of oscillator strengths of HeH^{2+} , 570.
- Dean, A. C. R. & Hinshelwood, Sir Cyril. Variations in the nucleic acid content of *Bact. lactis aerogenes* during the growth cycle (abstract), 146.
- Dean, P. Vibrational spectra of diatomic chains, 507.

- Doak, P. E. Acoustic radiation from a turbulent fluid containing foreign bodies, 129.
- Dugdale, J. S. & Gugan, D. The electrical resistivity of the two phases of sodium at low temperatures, 184.
- Electrical resistivity of the two phases of sodium at low temperatures (Dugdale & Gugan), 184.
- Electron resonance studies of transition metal oxyions. I. Experimental results for the manganate, hypomanganate and ferrate ions (Carrington, Ingram, Lott, Schonland & Symons), 101.
- Electron resonance studies of transition metal oxyions. II. Theory of electron resonance in manganate (Schonland), 111.
- Eley, D. D. & Wilkinson, P. R. Adsorption and oxide formation on aluminium films, 327.
- England, J. B. A. *See* Aguilar, Burcham, Catalá, England, McKee & Rotblat.
- Engler, A., Jones, P. B. & Mulvey, J. H. Interactions of antiprotons with nuclei, 425.
- Ewles, J. & Joshi, R. V. The luminescence of thallium-activated potassium chloride phosphors, 358.
- Experiment on heat transfer by overstable and ordinary convection (Goroff), 537.
- Fisher, M. E. Lattice statistics in a magnetic field. I. A two-dimensional super-exchange antiferromagnet, 66.
- Flow of polycrystalline metals under simple shear. II. (Andrade & Jolliffe), 291.
- Galwey, A. K. & Jacobs, P. W. M. The thermal decomposition of ammonium perchlorate at low temperatures, 455.
- Goroff, I. R. An experiment on heat transfer by overstable and ordinary convection, 537.
- Groves, G. V. Motion of a satellite in the earth's gravitational field, 48.
- Gugan, D. *See* Dugdale & Gugan.
- Halliday, J. S. Contrast, breadths and relative intensities of electron diffraction rings, 30.
- Hayes, W. *See* Baker, Hayes & O'Brien.
- Hazell, A. C. & Truter, Mary R. The stereochemistry of β -diketo complexes with trimethylplatinum IV. II. The crystal structure of ethyl (trimethylplatinium-) acetoacetate, 218.
- Hinshelwood, Sir Cyril. *See* Dean & Hinshelwood.
- Honda, M. Theory of a thin wing in a shear flow, 372.
- Hooper, G. W. *See* Alcock & Hooper.
- Hypernucleus studies. I. Mesonically decaying hypernuclei (Lokanathan, Robinson & St Loran), 470.
- Ingram, D. J. E. *See* Carrington, Ingram, Lott, Schonland & Symons.
- Initiation of styrene polymerization by phenyl titanium triisopropoxide and titanous triisopropoxide (North), 408.
- Interactions of antiprotons with nuclei (Engler, Jones & Mulvey), 425.
- Intermolecular forces and properties of fluids. I. The automatic calculation of higher virial coefficients and some values of the fourth coefficient for the Lennard-Jones potential (Boys & Shavitt), 487.
- Intermolecular forces and properties of fluids. II. A general functional representation of intermolecular potentials, and some values of the second, third and fourth virial coefficients for systematically differing potentials (Boys & Shavitt), 499.
- Intermolecular forces and solvent effects. I. Frequency shifts (Caldow & Thompson), 1.
- Intermolecular forces and solvent effects. II. Band intensities (Caldow, Cunliffe-Jones & Thompson), 17.

- Jacobs, P. W. M. *See* Galwey & Jacobs.
Jolliffe, K. H. *See* Andrade & Jolliffe.
Jones, G. O. *See* Bowen & Jones.
Jones, P. B. *See* Engler, Jones & Mulvey.
Joshi, R. V. *See* Ewles & Joshi.

Lattice statistics in a magnetic field. I. A two-dimensional super-exchange antiferromagnet (Fisher), 66.

Lloyd, D. G. *See* Charlesby & Lloyd.

Lokanathan, S., Robinson, D. K. & St Lorant, S. J. Hypernucleus studies. I. Mesonically decaying hypernuclei, 470.

Lott, K. A. K. *See* Carrington, Ingram, Lott, Schonland & Symons.

Luminescence of thallium-activated potassium chloride phosphors (Ewles & Joshi), 358.

McGrath, W. D. & Norrish, R. G. W. Studies of the reactions of excited oxygen atoms and molecules produced in the flash photolysis of ozone, 317.

McKee, J. S. C. *See* Aguilar, Burcham, Catalá, England, McKee & Rotblat.

McKellar, J. F. & Norrish, R. G. W. The combustion of gaseous aldehydes studied by flash photolysis and kinetic spectroscopy, 147.

Martin, Douglas L. The specific heat of lithium from 20 to 300 °K: the martensitic transformation, 444.

Martin, Douglas L. The specific heat of sodium from 20 to 300 °K: the martensitic transformation, 433.

Measurement of adhesion of thin films (Benjamin & Weaver), 163.

Moffat, J. & Stringfellow, M. W. The small-angle scattering of photons of about 100 MeV energy, 242.

Motion of a satellite in the earth's gravitational field (Groves), 48.

Mulvey, J. H. *See* Engler, Jones & Mulvey.

Norrish, R. G. W. *See* McGrath & Norrish *also* McKellar & Norrish.

North, A. M. The initiation of styrene polymerization by phenyl titanium triisopropoxide and titanous triisopropoxide, 408.

O'Brien, M. C. M. *See* Baker, Hayes & O'Brien.

Percival, I. C. *See* Castillejo, Percival & Seaton.

Perturbation calculation of oscillator strengths of HeH^{2+} (Dalgarno & Stewart), 570.

Pitteway, M. L. V. Reflexion of radio waves from a stratified ionosphere modified by weak irregularities. II, 86.

Radiation kinetics in anthracene-silicone mixtures (Charlesby & Lloyd), 343.

Reflexion of radio waves from a stratified ionosphere modified by weak irregularities. II. (Pitteway), 86.

Robinson, D. K. *See* Lokanathan, Robinson & St Lorant.

Rotblat, J. *See* Aguilar, Burcham, Catalá, England, McKee & Rotblat.

Rowell, P. M. The thermal conductivity of some superconductors, 542.

St Lorant, S. J. *See* Lokanathan, Robinson & St Lorant.

Satellite lines in the paramagnetic resonance spectra of impurities in calcium fluoride (Baker, Hayes & O'Brien), 273.

Scattering of 38 MeV α -particles by C, N, O, F and Kr nuclei (Aguilar, Burcham, Catalá, England, McKee & Rotblat), 395.

- Schonland, D. S. Electron resonance studies of transition metal oxyions. II. Theory of electron resonance in manganate, 111.
- Schonland, D. S. *See* Carrington, Ingram, Lott, Schonland & Symons.
- Seaton, M. J. *See* Castillejo, Percival & Seaton.
- Shavitt, I. *See* Boys & Shavitt.
- Small-angle scattering of photons of about 100 MeV energy (Moffatt & Stringfellow), 242.
- Solvent effects on the infra-red spectra of hindered phenols (Bellamy & Williams), 119.
- Specific heat of lithium from 20 to 300 °K: the martensitic transformation (Martin), 444.
- Specific heat of sodium from 20 to 300 °K: the martensitic transformation (Martin), 433.
- Stereochemistry of β -diketo complexes with trimethylplatinum IV. I. The crystal structure of trimethyl 4:6-dioxononyl platinum (Swallow & Truter), 205.
- Stereochemistry of β -diketo complexes with trimethylplatinum IV. II. The crystal structure of ethyl (trimethylplatini-)acetoacetate (Hazell & Truter), 218.
- Stewart, A. L. *See* Dalgarno & Stewart.
- Stringfellow, M. W. *See* Moffat & Stringfellow.
- Studies of the reactions of excited oxygen atoms and molecules produced in the flash photolysis of ozone (McGrath & Norrish), 317.
- Superconductivity of tin, lead and thallium up to 10 000 atmospheres (Bowen & Jones), 522.
- Swallow, A. G. & Truter, Mary R. The stereochemistry of β -diketo complexes with trimethylplatinum IV. I. The crystal structure of trimethyl 4:6-dioxononyl platinum, 205.
- Symons, M. C. R. *See* Carrington, Ingram, Lott, Schonland & Symons.
- Thermal conductivity of some superconductors (Rowell), 542.
- Thermal decomposition of ammonium perchlorate at low temperatures (Galwey & Jacobs), 455.
- Thermodynamics of the gaseous oxides of the platinum-group metals (Alcock & Hooper), 551.
- Theory of a thin wing in a shear flow (Honda), 372.
- Theory of elastic collisions between electrons and hydrogen atoms (Castillejo, Percival & Seaton), 259.
- Thompson, H. W. *See* Caldow & Thompson; *also* Caldow, Cunliffe-Jones & Thompson.
- Three-dimensional disturbances in flow between parallel planes (Watson), 562.
- Tozer, B. A. *See* Craggs & Tozer.
- Truter, Mary R. *See* Hazell & Truter *also* Swallow & Truter.
- Variations in the nucleic acid content of *Bact. lactis aerogenes* during the growth cycle (abstract) (Dean & Hinshelwood), 146.
- Vibrational spectra of diatomic chains (Dean), 507.
- Watson, J. Three-dimensional disturbances in flow between parallel planes, 562.
- Weaver, C. *See* Benjamin & Weaver.
- Wilkinson, P. R. *See* Eley & Wilkinson.
- Williams, R. L. *See* Bellamy & Williams.
