

INDEX TO VOLUME 281 (A)

- Antarctic circumpolar current and Convergence (discussion) (Crease), 14.
 Appendix to a paper by Hayes & Wilkens (Hayes, Jones & Stevenson), 361.
 Ariel I satellite (discussion) (Baumann), 439.
 Artificial radiation belt produced by the Starfish nuclear explosion (discussion) (Durney, Elliott, Hynds & Quenby), 565.
- Baumann, R. C. The Ariel I satellite (discussion), 439.
 Bondi, H. The contraction of gravitating spheres, 39.
 Bourdeau, R. E. & Donley, J. L. Explorer VIII satellite measurements in the upper ionosphere (discussion), 487.
 Bowen, P. J., Boyd, R. L. F., Henderson, C. L. & Willmore, A. P. Electron temperature in the upper *F*-region (discussion), 526.
 Bowen, P. J., Boyd, R. L. F., Henderson, C. L. & Willmore, A. P. Measurement of electron temperature and concentration from a spacecraft (discussion), 514.
 Bowen, P. J., Boyd, R. L. F., Raitt, W. J. & Willmore, A. P. Ion composition of the upper *F*-region (discussion), 504.
 Bowen, P. J., Norman, K., Pounds, K. A., Sanford, P. W. & Willmore, A. P. Measurement of the solar spectrum in the wavelength band 4 to 14 Å (discussion), 538.
 Boyd, R. L. F. *See* Bowen, Boyd, Henderson & Willmore; Bowen, Boyd, Raitt & Willmore.
- Chandrasekhar, S. Propagation of elastic waves in liquid crystals, 92.
 Charlesby, A. & Morris, J. Enhanced ionic polymerization of styrene induced by radiation, 392.
 Charnock, H. Energy transfer by the atmosphere and the Southern Ocean (discussion), 6.
 Christian, J. W. & Masters, B. C. Low-temperature deformation of body-centred cubic metals. I. Yield and flow stress measurements, 223.
 Christian, J. W. & Masters, B. C. Low-temperature deformation of body-centred cubic metals. II. Mechanism of thermally activated flow, 240.
 Contraction of gravitating spheres (Bondi), 39.
 Contributions to the specialization theory of polynomial modules (Northcott & Reufel), 291.
 Crease, J. The Antarctic circumpolar current and Convergence (discussion), 14.
 Critical-point analysis of the phonon spectra of diamond, silicon and germanium (Johnson & Loudon), 274.
- Davies, A. J., Evans, C. J. & Jones, F. Llewellyn. Electrical breakdown of gases: the spatio-temporal growth of ionization in fields distorted by space charge, 164.
 Deacon, G. E. R. and others. A discussion on the physical and biological changes across the Antarctic Convergence, 1.
 Deacon, G. E. R. Introduction to a discussion, 1.
 Derivation of Green-type, transitional, and uniform asymptotic expansions from differential equations. I. General theory, and application to modified Bessel functions of large order (Jorna), 99.
 Derivation of Green-type, transitional, and uniform asymptotic expansions from differential equations. II. Whittaker functions $W_{k,m}$ for large k , and for large $|k^2 - m^2|$ (Jorna), 111.
 Discussion on the physical and biological changes across the Antarctic Convergence (Deacon and others), 1.

- Discussion on the results from the first Anglo-American satellite, Ariel I, and related observations (Massey and others), 437.
- Distribution of the plankton in relation to the Antarctic Convergence (discussion) (Mackintosh), 21.
- Donley, J. L. *See* Bourdeau & Donley.
- Donnelly, R. J. Experiments on the stability of viscous flow between rotating cylinders. III. Enhancement of stability by modulation, 130.
- Dorling, E. B. & Robins, M. O. United Kingdom activities (discussion), 445.
- Durney, A. C., Elliott, H., Hynds, R. J. & Quenby, J. J. The artificial radiation belt produced by the Starfish nuclear explosion (discussion), 565.
- Durney, A. C., Elliott, H., Hynds, R. J. & Quenby, J. J. The energy spectrum of the heavy primary cosmic rays (discussion), 553.
- Dynamic Jahn-Teller effect in octahedrally co-ordinated d^9 ions (O'Brien), 323.
- Eccles, D. *See* King, Smith, Eccles, Fooks & Helm.
- Electrical breakdown of gases: the spatio-temporal growth of ionization in fields distorted by space charge (Davies, Evans & Jones), 164.
- Electron correlations in narrow energy bands. III. An improved solution (Hubbard), 401.
- Electron density distribution in the topside ionosphere. I. Magnetic-field-aligned strata (discussion) (Sayers), 450.
- Electron density distribution in the topside ionosphere. II. Effects of the nuclear explosion over Johnston Island and the ionization produced by corpuscular radiation at high magnetic latitudes (discussion) (Sayers), 459.
- Electron temperature in the upper F -region (discussion) (Bowen, Boyd, Henderson & Willmore), 526.
- Elliott, H. *See* Durney, Elliott, Hynds & Quenby.
- Energy spectrum of the heavy primary cosmic rays (discussion) (Durney, Elliott, Hynds & Quenby), 553.
