

## PHILOSOPHICAL TRANSACTIONS AND PROCEEDINGS

The *Philosophical Transactions* have been published since 1665 and the *Proceedings* since 1832. Both of these journals are issued in two series: Series A, Mathematical and Physical Sciences and Series B, Biological Sciences.

There is no essential difference between the papers in these two journals. The papers in the *Philosophical Transactions* are usually longer or have numerous or large illustrations.

### *Philosophical Transactions*

Subscription prices (*payable in advance of publication*)

volume in parts as issued	£11. 17s. 6d. [\$35.65]
binding cases are available at	6s. od. [\$ 0.90]
volume cloth bound	£12. 10s. 6d. [\$37.50]

### *Proceedings*

Subscription prices (*payable in advance of publication*)

volume in parts as issued	£4. 0s. od. [\$12.00]
binding cases are available at	5s. od. [\$ 0.75]
volume cloth bound	£4. 7s. 6d. [\$13.15]

### *Back numbers of Proceedings and Transactions*

Lists showing the availability and prices of back numbers may be obtained on application to the Executive Secretary.

*An Author Index to the 'Proceedings', 'Philosophical Transactions', 'Obituary Notices' and 'Biographical Memoirs' of the Royal Society.*

'Proceedings', and 'Philosophical Transactions' covering the period 1931-1940.  
Price 7s. 6d. (\$1.10). Cloth bound.

'Proceedings', 'Philosophical Transactions' and 'Obituary Notices' covering the period 1941-1950.

Price 5s. od. (\$0.75) paper covered; 7s. 6d. (\$1.10) cloth bound.

'Proceedings', 'Philosophical Transactions', 'Obituary Notices' and 'Biographical Memoirs' covering the period 1951-1960.

Price £1. 3s. (\$3.50). Cloth bound.

CONTENTS

	PAGE
Variable transfer rates in superfluid helium films. By J. F. ALLEN, F.R.S. and C. C. MATHESON . . . . .	1
Thick non-equilibrium helium $\pi$ films. By J. TILLEY and C. G. KUPER . . . . .	14
The irreducible representations of $\tilde{U}(12)$ . By J. M. CHARAP, P. T. MATTHEWS, F.R.S. and R. F. STREATER	24
Theory of the rocket-grenade method of measuring temperature, pressure, density and wind velocity in the upper atmosphere. By G. V. GROVES . . . . .	44
A measurement of the cross section for production of $\text{He}^+(2S)$ ions by electron impact excitation of ground state helium ions. By D. F. DANCE, M. F. A. HARRISON and A. C. H. SMITH . . . . .	74
The crystallography and molecular structure of 1, 8-bisdehydro-[14]annulene. By N. A. BAILEY and R. MASON . . . . .	94
The physical properties of phospholipids. I. Solid state and mesomorphic properties of some 2,3-diacyl-DL-phosphatidylethanolamines. By D. CHAPMAN, P. BYRNE and G. G. SHIPLEY. (Plate 1) . . . . .	115
