NOTICE TO AUTHORS AND COMMUNICATORS

No scientific communication or paper is considered, read or published by the Royal Society unless it has been communicated by a Fellow or Foreign Member of the Society whose duty it shall be 'to satisfy himself that any letter, report, or other paper which he may communicate is suitable to be read before the Society' (Statute 64).

In view of the necessity for economy, authors of papers submitted to the Royal Society are required to put their communications in as concise a form as possible. MSS should be typewritten, carefully revised and properly prepared as copy for press. It is desirable that authors should retain copies of their MSS for reference.

The communicator shall also be responsible for the suitable presentation of the MS and for its grammatical correctness. The Secretaries reserve the right to return a MS to the author for retyping or other adequate preparation if it is received prepared or presented in a state which would make it difficult for the compositor to set.

Every paper must be accompanied by *three copies* of a brief summary not exceeding 5 % of the length of the paper or one page of 'Proceedings'.

Authors are requested to send in all drawings, diagrams or other illustrations in a state suitable for direct photographic reproduction. They should be drawn on a large scale in Indian ink on Bristol board or on good quality tracing linen or tracing paper, with temporary lettering in blue pencil. Great care should be exercised in selecting only those that are essential. If unsatisfactory drawings are submitted authors may be required to have them redrawn by a professional artist.

It is to be understood that papers are only accepted on the assumption that authors are prepared to conform with the instructions to authors prescribed by the Royal Society.

Copies of *Notes on the preparation of papers to be communicated to the Royal Society* will be sent to communicators and authors of papers on application to the Executive Secretary.
