

SHIP TECHNOLOGY IN THE 1980s

| | |
|--|---------------------------------|
| Introductory remarks | SIR JAMES LIGHTHILL, F.R.S. |
| Techno-Economic Aspects | |
| A forward view of British shipping | I. DENHOLM |
| Shipbuilding in the future | R. HURST |
| A world view of ship operations in the 1980s | E. F. LORENTZEN |
| Operational and Environmental Factors | |
| A survey of design and operational problems – environmental and regulatory aspects | R. F. PROSSER |
| The designer's response from the owner's side | M. MEEK |
| Scientific Support for Ship Design | |
| Structures and materials: progress and prospects | J. B. CALDWELL |
| Hydrodynamics and ship performance | J. A. H. PAFFETT |
| An approach to a Rational Design System | |
| A design methodology for ships and other complex systems | P. MANDEL AND C. CHRYSOSTOMIDIS |
| An integrated approach to design and production | J. R. ATKINSON |
| Design procedures and their implementation | J. McCALLUM |
| Marine Engineering | |
| Future engineering systems for naval ships | L. D. DYMOKE |
| Future propulsion systems for merchant ships | R. MUNTON |
| Shipyards of the future | |
| Development of the automated shipyard | I. TAKEZAWA |
| Shipyards of the future: possibilities and prospects | F. TAYLOR |
| Concluding remarks | SIR JAMES LIGHTHILL, F.R.S. |

Philosophical Transactions of the Royal Society series A volume 273 no. 1231

Price: £4.85 (U.K. addresses) £5.00 (Overseas)

PROCEEDINGS OF THE ROYAL SOCIETY, SERIES A

Number 1610

26 March 1974

Volume 337

CONTENTS

| | |
|--|----------------------|
| HALL, C., RICHARDS, R. E. & SHARP, R. R. Further studies of chemical shifts in the nuclear resonances of caesium ions in solution | <i>pages</i> 297-315 |
| MORGAN, D. M. L. & NEUBERGER, A. Mutarotation of some biologically important 2-substituted hexoses | 317-332 |
| IZOD, T. P. J. & TEDDER, J. M. Two-stage ion beam mass spectrometry. I. The apparatus and its use to study the reaction of acetylium (CH_3CO^+) and nitronium (NO_2^+) ions with aromatic compounds in the gas phase | 333-350 |
| PARKES, E. W. The expanding and contracting hinge in a rapidly heated rigid-plastic beam | 351-364 |
| ROSENTHAL, D., MCEACHRAN, R. P. & COHEN, M. Sum rules for electric quadrupole transitions | 365-378 |
| HIRST, W. & HOLLANDER, A. E. Surface finish and damage in sliding | 379-394 |
| SPRINGER, S. G. The solution of heat-transfer problems by the Wiener-Hopf technique. II. Trailing edge of a hot film | 395-412 |
| HOWE, M. S. Contributions to the theory of scattering by randomly irregular surfaces | 413-433 |
| HEDDLE, D. W. O., KEESING, R. G. W. & KUREPA, JELENA M. High resolution studies of electron excitation. II. The 3^3D , 4^3D and 4^1D states of helium: features in the $n = 4$ excitation functions | 435-441 |
| HEDDLE, D. W. O., KEESING, R. G. W. & WATKINS, R. D. High resolution studies of electron excitation. III. Polarization near threshold of light from the 4D states of helium | 443-450 |
