

UNITED KINGDOM MARINE SCIENCE DIRECTORY, 1972

A directory of marine scientists and their institutions

Compiled on behalf of
The Royal Society's British National Committee on Oceanic Research

CONTENTS

	PAGE
Guide to the use of this book as a directory	2
Introduction by Sir George Deacon, C.B.E., F.R.S.	5
TABLE 1 Index of non-University laboratories	7
TABLE 2 Index of University departments and laboratories	9
SECTION 1 Government and Government-aided laboratories wholly concerned with marine subjects	13
SECTION 2 University departments with continuing interests in marine science as part of departmental policy	53
SECTION 3 University departments at which staff members are pursuing marine studies [other than those in Section 2]	119
SECTION 4 Non-University organizations not wholly devoted to marine science	131
APPENDIX I British research ships and facilities offered for marine scientists	144
Section A Oceangoing	144
Section B Shelf seas and coastal waters	145
APPENDIX II Library facilities	147
INDEXES Index of marine scientists	151
Subject classification used for subject index	169
Subject index	173
Review of International Organizations concerned with marine science	190

Price: £2.20 (U.K. addresses) £2.25 (Overseas addresses)

This Directory largely supersedes 'Marine Science in the United Kingdom 1967' (copies of which are still available at the reduced price of £0.50, including postage and packing).

PROCEEDINGS OF THE ROYAL SOCIETY, SERIES A

Number 1649 23 December 1975 Volume 347

CONTENTS

- REQUENA, J., BILLETT, D. F. & HAYDON, D. A. *pages* 141–159
Van der Waals forces in oil–water systems from the study of thin lipid films. I. Measurement of the contact angle and the estimation of the van der Waals free energy of thinning of a film. [Plates 3 and 4]
- REQUENA, J. & HAYDON, D. A. 161–177
Van der Waals forces in oil–water systems from the study of thin lipid films. II. The dependence of the van der Waals free energy of thinning on film composition and structure
- BROOKS, D. E., LEVINE, Y. K., REQUENA, J. & HAYDON, D. A. 179–194
Van der Waals forces in oil–water systems from the study of thin lipid films. III. Comparison of experimental results with Hamaker coefficients calculated from Lifshitz theory
- BIRCHLEY, J. C. 195–212
Droplet combustion in a stream of oxidant
- CANNELL, P. A. 213–238
Edge scattering of aerodynamic sound by a lightly loaded elastic half-plane
- COLE, R. J. & PACK, D. C. 239–252
Some complementary bivariational principles for linear integral equations of Fredholm type
- GASTER, M. & GRANT, I. 253–269
An experimental investigation of the formation and development of a wave packet in a laminar boundary layer
- GASTER, M. 271–289
A theoretical model of a wave packet in the boundary layer on a flat plane
-
-
