

THE ROYAL SOCIETY

Proceedings: Mathematical and Physical Sciences

Volume 430 Pages 1–261 Number 1878 July 1990

Proceedings of the Royal Society of London SERIES A

PROCEEDINGS: MATHEMATICAL AND PHYSICAL SCIENCES

Editor: Professor J. E. Enderby

Editorial Board

Professor J. M. Ball	Dr P. Goddard	Professor M. C. R. Symons
Professor M. H. P. Bott	Dr J. C. R. Hunt	Dr A. A. Wells
Professor D. Bradley	Professor J. B. Pendry	Professor D. Williams
	Professor N. Sheppard	

Regional Editors

Professor J. D. Dunitz, Organic Chemistry Laboratory, ETH-Zentrum, Universitätstrasse 16, CH-8092 Zurich, Switzerland

Professor M. E. Fisher, Institute for Physical Science and Technology, University of Maryland, College Park, Maryland 20742, U.S.A.

Professor K. Fukui, Institute for Fundamental Chemistry, 34-4 Takano-Nishihiraki-cho, Sakyo-ku, Kyoto 606, Japan

Professor O. M. Phillips, Department of Earth and Planetary Sciences, The Johns Hopkins University, Baltimore, Maryland 21218, U.S.A.

Professor C. N. R. Rao, Solid State and Structural Chemistry Unit, Indian Institute of Science, Bangalore, India 560012

NOTICE TO AUTHORS

Scope. *Proceedings* series A publishes papers on any aspect of mathematical and physical sciences, including chemistry and engineering. Short papers are especially welcome (up to 10 printed pages; for example, equivalent to about 5000 words and 3 figures), and if accepted are normally published within three months of receipt at the Society. These should contain reports of completed work; preliminary reports ('letters') are not encouraged.

Submission. Authors may send their papers (i) direct to the Editorial Office, whose address is given below, (ii) to one of the Regional Editors listed above, or (iii) via a Fellow or Foreign Member of the Society. The Editor will, in reaching a decision, take into account the comments of referees and, if route (iii) is chosen, the recommendation of the Fellow or Foreign Member. Authors are invited to suggest the names of referees, with the understanding that such suggestions are not necessarily adopted. Three copies of the typescript and figures are required, and originals of any figures should also be submitted. Papers should be prepared in accordance with the 'Instructions to authors' printed at the end of every volume of *Proceedings* A and available from the Editorial Office.

Editorial address: Editorial Office, *Proceedings* A, The Royal Society, 6 Carlton House Terrace, London SW1Y 5AG.

COPYRIGHT

© 1990 The Royal Society and the authors of individual papers

It is the policy of the Royal Society not to charge any royalty for the production of a single copy of any one article made for private study or research. Requests for the copying or reprinting of any article for any other purpose should be sent to the Royal Society.

SUBSCRIPTIONS

Proceedings of the Royal Society series A (ISSN 0080-4630) is published in monthly parts. The subscription price for 1990, including postage, is £300 in the U.K. and £320 (U.S. \$595) overseas. Air-speeded post is available for overseas subscribers at a small extra charge. Full details of subscription rates may be obtained on request from the Publications Sales and Marketing Manager, The Royal Society, 6 Carlton House Terrace, London SW1Y 5AG.

Editorial

It is a privilege to write the introduction to the first issue of the new-style *Proceedings A*. The relaunched journal takes a leap forward with high quality papers of a cross-disciplinary nature, with greater emphasis to be given to the fast publication of shorter papers, and with many more papers from authors worldwide.

The changes, designed to assist both authors and readers, will bring more top research into the journal, already considered to be the publication of choice for the interdisciplinary international dissemination of lively and topical research in the physical sciences. The subject coverage will be wider and the journal's appeal will be broader. The Editorial Office received many high quality papers before the new arrangements were finalized, and these will appear in the next few issues. The response has been very encouraging.

The work of the Editorial Board, the Regional Editors, and Bruce Goatly, Chris Purdon and Jonathan Wainwright of the Royal Society has been invaluable. I look forward to receiving many interesting papers in the near future.

John Enderby
