

**Editorial Board**

**M. V. Berry**, Editor, HH Wills Physics Laboratory, University of Bristol

**S. Bandyopadhyay**, Department of Electrical Engineering, Virginia Commonwealth University

**L. Botten**, Department of Mathematical Sciences, University of Technology, Sydney

**O. Bruno**, Applied and Computational Mathematics, CALTECH

**S. Carlip**, Department of Physics, University of California, Davis

**C. G. Caro**, Department of Bioengineering, Imperial College London

**C. R. A. Catlow**, Department of Chemistry, University College London

**M. Chai**, Department of Chemistry, Central Michigan University

**W. Craig**, Department of Mathematics and Statistics, McMaster University

**D. Deutsch**, Centre for Quantum Computation, University of Oxford

**R. J. Donnelly**, Department of Physics, University of Oregon

**A. S. Fokas**, DAMPT, University of Cambridge

**M. S. Freund**, Department of Chemistry, University of Manitoba

**E. Gelenbe**, Department of Electrical and Electronic Engineering, Imperial College London

**M. J. Gillan**, Department of Physics and Astronomy, University College London

**A. L. Greer**, Department of Materials Science & Metallurgy, University of Cambridge

**A. Hirska**, Department of Mechanical, Aerospace and Nuclear Engineering, Rensselaer Polytechnic Institute

**L. P. Hughston**, Department of Mathematics, Imperial College London

**J. Hutchinson**, Division of Engineering and Applied Sciences, Harvard University

**S. Iijima**, AIST/Research Center for Advanced Carbon Materials, NEC Laboratories

**V. S. Isham**, Department of Statistical Science, University College London

**R. Jeltsch**, Seminar für Angewandte Mathematik, ETH-Zürich

**J. T. Jenkins**, Theoretical and Applied Mechanics, Cornell University

**O. E. Jensen**, School of Mathematical Sciences, University of Nottingham

**P. Knight**, Faculty of Natural Sciences, Imperial College London

**M. Lakshmanan**, Centre for Nonlinear Dynamics, Bharathidasan University

**E. Lifshin**, College of Nanoscale Science & Engineering, University at Albany, State University of New York

**P. Linden**, Department of Mechanical and Aerospace Engineering, University of California

**J. T. C. Liu**, Division of Engineering, Brown University

**L. Mahadevan**, Division of Engineering and Applied Sciences, Harvard University

**N. S. Manton**, DAMPT, University of Cambridge

**D. McKenzie**, School of Physics, University of Sydney

**K. Moffatt**, DAMPT, University of Cambridge

**T. Mullin**, Department of Physics and Astronomy, University of Manchester

**K. Nakamura**, Department of Applied Physics, Osaka City University

**D. W. Noid**, Computer Science and Mathematics Division, ORNL

**A. N. Norris**, Department of Mechanical and Aerospace Engineering, Rutgers University

**H. Ockendon**, OCIAM, Mathematical Institute, University of Oxford

**D. G. Pettifor**, Department of Materials, University of Oxford

**D. Phillips**, Department of Chemistry, Imperial College London

**M. Plenio**, Department of Physics, Imperial College London

**J. J. Rice**, Functional Genomics and Systems Biology, IBM T. J. Watson Research Center

**B. Rustern**, Department of Computing, Imperial College London

**P. Sheng**, Institute of Nano Science and Technology, Hong Kong University of Science and Technology

**J. Sivaloganathan**, Department of Mathematical Sciences, University of Bath

**A. Sousa**, Department of Mechanical Engineering, University of New Brunswick

**A. Tate**, Artificial Intelligence Applications Institute, University of Edinburgh

**J. M. Thomas**, Department of Materials Science, University of Cambridge

**L. N. Trefethen**, Computing Laboratory, University of Oxford

**T. Wei**, Department of Mechanical and Aerospace Engineering, Rutgers University

**R. Wong**, Department of Mathematics, City University of Hong Kong

**N. Yao**, Imaging and Analysis Center, Princeton Institute for the Science and Technology of Materials

**AIMS AND SCOPE**

*Proc. R. Soc. A* publishes research articles across the mathematical, physical and engineering sciences. The emphasis is on high-quality, original, fundamental articles of interest to a wide range of scientists, in emerging and interdisciplinary areas as well as established disciplines.

**COPYRIGHT** © 2009 The Royal Society

Except as otherwise permitted under the Copyright, Designs and Patents Act, 1988, this publication may only be reproduced, stored or transmitted, in any form or by any means, with the prior permission in writing of the publisher, or, in the case of reprographic reproduction, in accordance with the terms of a licence issued by the Copyright Licensing Agency. In particular, the Society permits the making of a single photocopy of an article from this issue (under Sections 29 and 38 of the Act) for an individual for the purposes of research or private study.

**SUBSCRIPTIONS**

In 2010 *Proc. R. Soc. A* (ISSN 1364-5021) will be published monthly. Full details of subscriptions may be obtained either by contacting our journal fulfilment agent, Portland Customer Services, Commerce Way, Colchester CO2 8HP; tel: +44 (0)1206 796351; fax: +(0)1206 799331; email: sales@portland-services.com or by visiting our website at royalsocietypublishing.org/info/subscriptions. The Royal Society is Registered Charity No. 207043.

Subscription prices 2010 calendar year	Europe	USA & Canada	All other countries
Printed version plus electronic access	£1088/€1414	\$2048	£1165/\$2090

Typeset in India by Techset Composition Limited, Salisbury, UK. Printed in the UK by Cambrian Printers.

This paper meets the requirements of ISO 9706:1994(E) and ANSI/NISO Z39.48-1992 (Permanence of Paper) effective with volume 436, issue 1896, 1992.

*Proceedings of the Royal Society A* (ISSN 1364-5021) is published monthly for \$2048 per year by the Royal Society, and is distributed in the USA by Pitney Bowes International Mailing Services Inc. as mailing agent. Periodicals postage paid at Kearny, NJ, and additional mailing offices. POSTMASTER: send address changes to PB International Mailing Services Inc. 500 US Hwy 46, Clifton, NJ, 07011.
