Proc. R. Soc. A is published monthly for $2048 per year by the Royal Society, and is distributed in the USA by agent named Air Proc. R. Soc. Amitted, in any form or by any means, with the prior permission in writing of the publisher, or, in the case of reprographic reproduction, in accordance with the terms of a licence issued by the Copyright Licensing Agency. In particular, the Society permits the making of a single photocopy of an article from this issue (under Sections 29 and 38 of the Act) for an individual (for the purposes of research or private study).

GUIDANCE FOR AUTHORS

The criteria for selection are scientific excellence, originality and impact across disciplines within mathematical, physical and engineering sciences. The manuscript limit is 20 printed pages (about 540 words or two figures per page). Papers over this limit will be considered, up to a maximum of 28 pages, but will also be subject to page charges.

The editors are responsible for all editorial decisions and they make these decisions based on the reports received from the referees and/or Editorial Board members. Many more good manuscripts are submitted to us than we have to consider, up to a maximum of 28 pages, but will also be subject to page charges.

Selection criteria

Selection criteria might include details of methods, derivations of equations, large tables of data and computer programs. However, the printed version must include enough detail to satisfy most non-specialist readers. Supplementary data up to 10Mb is placed on the Society’s website free of charge. Larger datasets must be deposited in recognised public domain databases by the author.

Conditions of publication

Articles must not have been published previously, nor be under consideration for publication elsewhere. The main findings of the article should not have been reported in any mass media. Like many journals, Proc. R. Soc. A employs a strict embargo policy where the reporting of a scientific article by the media is embargoed until a specific time. The Editor has final authority in all matters relating to publication.

Electronic Submission details

The Royal Society’s electronic-submission and peer-review service provides Proc. R. Soc. A authors with the facility to submit their papers online. The service allows you to upload files in a reliable and user-friendly way, using a Web-based system. When your paper is received, an immediate acknowledgement is sent that details how you can track your contribution online.

For full submission guidelines and access to all journal content please visit the Proc. R. Soc. A website, see rspa.royalsocietypublishing.org for further details.

The Royal Society, the national academy of science of the UK and the Commonwealth, is at the cutting edge of scientific progress. We support many top young scientists, engineers and technologists, influence science policy, debate scientific issues with the public and much more. We are an independent, charitable body and derive our authoritative status from over 1400 Fellows and Foreign Members.

Our mission: to expand knowledge and further the role of science and engineering in making the world a better place.

The Royal Society’s strategic priorities are to:

• invest in future scientific leaders and innovation,
• influence policymaking with the best scientific advice,
• promote science and mathematics education,
• increase access to the best science internationally and,
• inspire an interest in the joy, wonder and excitement of scientific discovery.

For further information on the Society’s activities, please contact the following departments on the extensions listed by dialing: Science Policy Centre 2573; General enquiries 2550; Research Support (UK grants and fellowships) 2542; Research Grants 2223; International Travel Grants 2555; Newman International Fellowships 2559; Science Communication 2573; Library and Information Services 2606.
