

## INDEX TO VOL. XCV. (A)

- Abell (W. S.) Chances of Loss of Merchant Ships, 383.  
Accelerations, apparatus for direct determination of (Galitzin), 492.  
Address of the President, November 30, 1918, 250.  
Ainslie (D. S.) See McLennan, Ainslie, and Fuller.  
Air, thermal conductivity of (Hercus and Laby), 190.  
Anniversary address, November 30, 1918, 250.  
Atmospheric opacity and electric potential (Chree), 210.  
Attraction, theory of, when force varies as any power of distance (MacMahon and Darling), 390.  
Bairstow (L.) and Berry (A.) Two-dimensional Solutions of Poisson's and Laplace's Equations, 457.  
Beams, curved (Guest), 1.  
Berry (A.) See Bairstow and Berry.  
Brodetsky (S.) The Two-Dimensional Motion of a Plane Lamina in a Resisting Medium, 516.  
Brush (C. F.), Hadfield (Sir R. A.), and Main (S. A.) Further Experiments on Spontaneous Generation of Heat in recently Hardened Steel, 120.  
Bryan (G. B.) See Jackson and Bryan.  
Burton (E. F.) A New Method of Weighing Colloidal Particles, 480.  
Cadmium spectrum in inactive gases (Collie and Watson), 115.  
Calcium, strontium, and barium, absorption spectra and ionisation potentials of (McLennan and Young), 273.  
Chapman (S.) An Outline of a Theory of Magnetic Storms, 61.  
Chinmayanandam (T. K.) On Haidinger's Rings in Mica, 176.  
Chree (C.) Electric Potential Gradient and Atmospheric Opacity at Kew Observatory, 210.  
Collie (J. N.) and Watson (H. E.) On the Spectrum of Cadmium in the Inactive Gases, 115.  
Colloidal particles, new method of weighing (Burton), 480.  
Cowley (W. L.) and Levy (H.) Vibration and Strength of Struts and Continuous Beams under End Thrusts, 440.  
Crookes (Sir W.) On the Arc Spectrum of Scandium, 438.  
Darling (H. B. C.) See MacMahon and Darling.  
Davies (A. C.) See Horton and Davies.  
Dearle (R. C.) Emission and Absorption in the Infra-red Spectra of Mercury, Zinc, and Cadmium, 280.  
Dey (A.) A New Method for the Absolute Determination of Frequency, 533.  
Diamagnetism of hydrogen and value of magneton (Oxley), 58.  
Dobbie (Sir J. J.) and Fox (J. J.) The Constitution of Sulphur Vapour, 484.  
Drops and vortices of gelatinising liquid, forms of (Hatschek), 303.  
Drops falling on water, sounds of (Mallock), 138.  
Elasticity of metals as affected by temperature (Mallock), 429.  
Electric circuit, effect of vibration of stretched wire in (Jackson), 51.  
Electric potential gradient and atmospheric opacity at Kew (Chree), 210.

Electric waves, diffraction of, by Earth (Watson), 83; — transmission round earth (Watson), 546.

Electrical effect in vibrating metals (Jackson and Bryan), 366.

Explosion at Okhta (Galitzin), 508.

Fluid motion, three-dimensional (Havelock), 354.

Fourier series, convergence of restricted (Young), 22.

Fox (J. J.) See Dobbie and Fox.

Fuller (D. S.) See McLennan, Ainslie, and Fuller.

Functions, coefficients in expansions of modular (Hardy and Ramanujan), 144.

Galitzin (Prince B.) An Apparatus for the Direct Determination of Accelerations, 492; — On the Explosion at Okhta, 508.

Gelatinising liquid in coagulating solutions, forms assumed by (Hatschek), 303.

Guest (J. J.) Curved Beams, 1.

Haidinger's rings in mica (Chinmayanandam), 176.

Hale (G. E.) On the Nature of Sun-spots, 234.

Hardy (G. H.) and Ramanujan (S.) On the Coefficients in the Expansions of certain Modular Functions, 144.

Hatschek (E.) A Study of the Forms assumed by Drops and Vortices of a Gelatinising Liquid in various Coagulating Solutions, 303.

Havelock (T. H.) Periodic Irrotational Waves of Finite Height, 38; — Wave Resistance: some Cases of Three-dimensional Fluid Motion, 354.

Helium lines, electrical resolution and broadening of (Merton), 30.

Hercus (E. O.) and Laby (T. H.) The Thermal Conductivity of Air, 190.

Hierarchical order among correlation coefficients, cause of (Thomson), 400.

Hopkinson (B.) Obituary notice of, xxvi.

Horton (F.) and Davies (A. C.) An Investigation of the Ionising Power of the Positive Ions from a Glowing Tantalum Filament in Helium, 333; — An Experimental Determination of the Ionisation Potential for Electrons in Helium, 408.

Ionisation potential for electrons in helium (Horton and Davies), 408.

Ionising power of positive ions from glowing tantalum in helium (Horton and Davies), 333.

Jackson (Sir H. B.) Experiments on the Effect of the Vibration of a Stretched Wire forming Part of a Closed Electric Circuit, 51; — and Bryan (G. B.) Experiments demonstrating an Electrical Effect in Vibrating Metal, 366.

Jeffcott (H. H.) The Periods of Lateral Vibration of Loaded Shafts.—The Rational Derivation of Dunkerley's Empirical Rule for determining Whirling Speeds, 106.

Laby (T. H.) See Hercus and Laby.

Lang (R. J.) See McLennan and Lang.

Levy (H.) See Cowley and Levy.

Light scattered by gases, its polarisation and intensity (Strutt), 155.

Light, scattering by solid substances (Strutt), 476.

Lucas (K.) Obituary notice of, i.

McLennan (J. C.) and Lang (R. J.) An Investigation of Extreme Ultra-violet Spectra with a Vacuum-grating Spectrograph, 258; — and Young (J. F. T.) On the Absorption Spectra and the Ionisation Potentials of Calcium, Strontium, and Barium, 273; — Ainslie (D. S.), and Fuller (D. S.) Vacuum Arc Spectra of various Elements in the Extreme Ultra-violet, 316.

- MacMahon (P. A.) and Darling (H. B. C.) Contribution to the Theory of Attraction when the Force Varies as any Power of the Distance, 390.
- Magnetic storms, theory of (Chapman), 61.
- Magneton, value of (Oxley), 58.
- Main (S. A.) See Brush, Hadfield, and Main.
- Mallock (A.) Note on the Effect of Wind Pressure on the Pitch of Organ Pipes, 99 ;  
— Sounds produced by Drops falling on Water, 138 ; — Note on the Elasticity of Metals as affected by Temperature, 429.
- Medals, awards of, 254-257.
- Merton (T. R.) On the Electrical Resolution and Broadening of Helium Lines, 30.
- Metals, elasticity of, as affected by temperature (Mallock), 429.
- Moon, value of secular acceleration of mean longitude (Nevill), 300.
- Motion of plane lamina in resisting medium (Brodetsky), 516.
- Müller (H.) Obituary notice of, xii.
- Nevill (E.) On the Value of the Secular Acceleration of the Mean Longitude of the Moon, 300.
- Obituary Notices of Fellows deceased :—Lucas, K., i ; Müller, H., xii ; Hopkinson, B., xxvi.
- Organ pipes, wind pressure and pitch of (Mallock), 99.
- Oxley (A. E.) The Diamagnetism of Hydrogen and the Value of the Magneton, 58.
- Poisson's and Laplace's equations, two-dimensional solutions of (Bairstow and Berry), 457.
- Polarisation of light scattered by gases (Strutt), 155.
- Raman (C. V.) Note on the Theory of Sub-synchronous Maintenance, 544.
- Ramanujan (S.) See Hardy and Ramanujan.
- Scandium, arc spectrum of (Crookes), 438.
- Series, non-harmonic trigonometrical (Young), 237.
- Shafts, periods of lateral vibration of loaded (Jeffcott), 106.
- Ships, chances of loss of merchant (Abell), 383.
- Spectra, absorption, and ionisation potentials of calcium, etc. (McLennan and Young), 273.
- Spectra, infra-red, of mercury, etc., emission and absorption in (Dearle), 280.
- Spectra of elements in extreme ultra-violet (McLennan and others), 316.
- Spectra, ultra-violet, investigation with vacuum-grating spectrograph (McLennan and Lang), 258.
- Spectrum of cadmium in inactive gases (Collie and Watson), 115.
- Steel, spontaneous generation of heat in recently hardened (Hadfield and others), 120.
- Struts and beams, vibration and strength of, under end thrusts (Cowley and Levy), 440.
- Strutt (Hon. R. J.) The Light scattered by Gases : its Polarisation and Intensity, 155 ;  
— Scattering of Light by Solid Substances, 476.
- Sulphur-vapour, constitution of (Dobbie and Fox), 484.
- Sun-spots, nature of (Hale), 234.
- Thermal conductivity of air (Hercus and Laby), 190.
- Thomson (G. H.) On the Cause of Hierarchical Order among the Correlation Coefficients of a Number of Variates taken in Pairs, 400.
- Thomson (Sir J. J.) Presidential Address, November 30, 1918, 250.
- Ultra-violet, arc spectra of elements in (McLennan and others), 316.

Vibrating metals, electrical effect in (Jackson and Bryan), 366.

Vibration of wire in closed electric circuit, effect of (Jackson), 51.

Watson (H. E.) See Collie and Watson.

Watson (G. N.) The Diffraction of Electric Waves by the Earth, 83 ; — The Transmission of Electric Waves round the Earth, 546.

Wave resistance (Havelock), 354.

Waves, periodic irrotational (Havelock), 38.

Whirling speeds, derivation of Dunkerley's empirical rule for determining (Jeffcott), 106.

Young (J. F. T.) See McLennan and Young.

Young (W. H.) On the Cesàro Convergence of Restricted Fourier Series, 22 ; — On Non-harmonic Trigonometrical Series, 237.

END OF THE NINETY-FIFTH VOLUME (SERIES A).
